

Puppy Pre-Kindergarten!

Maslow's University welcomes all canine students and this track sets your puppy up for success! The earlier you start training your dog, the better success they will have in the future! Our "puppy pre-kindergarten" combines 5 important categories: basics, manners, grooming, puzzles and tricks. In order to graduate, you must show your puppy completing the correct number of behaviors from each list based on your puppies age. Treats are highly encouraged for all the behaviors.

The puppy must show that it is ok with or able to perform the behaviors listed.

(Puppies 0 to 6 months must perform 3 behaviors from each list.

Puppies 7 to 11 months must perform 5 behaviors from each list)
